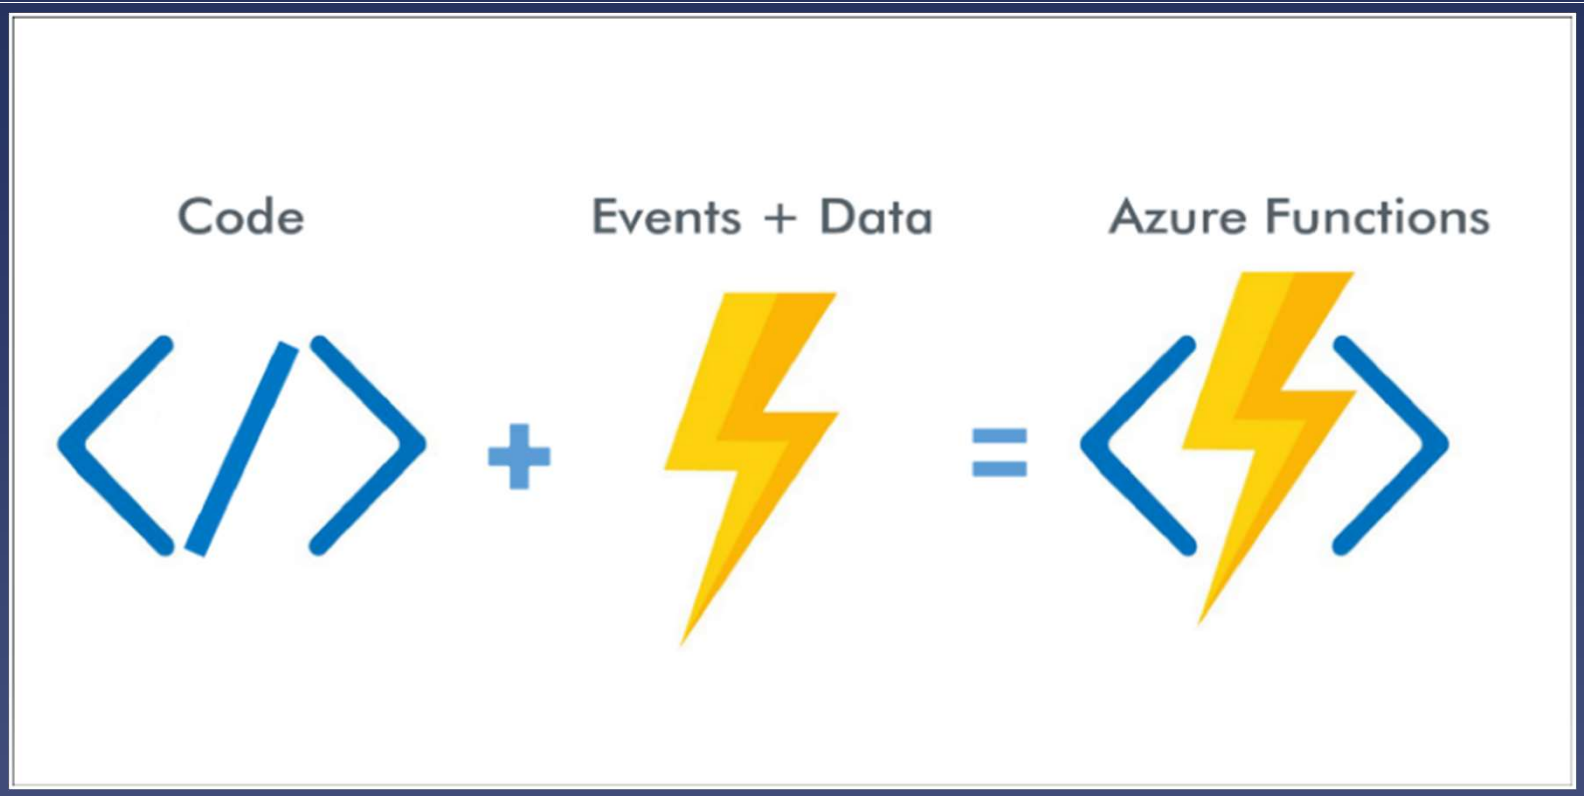
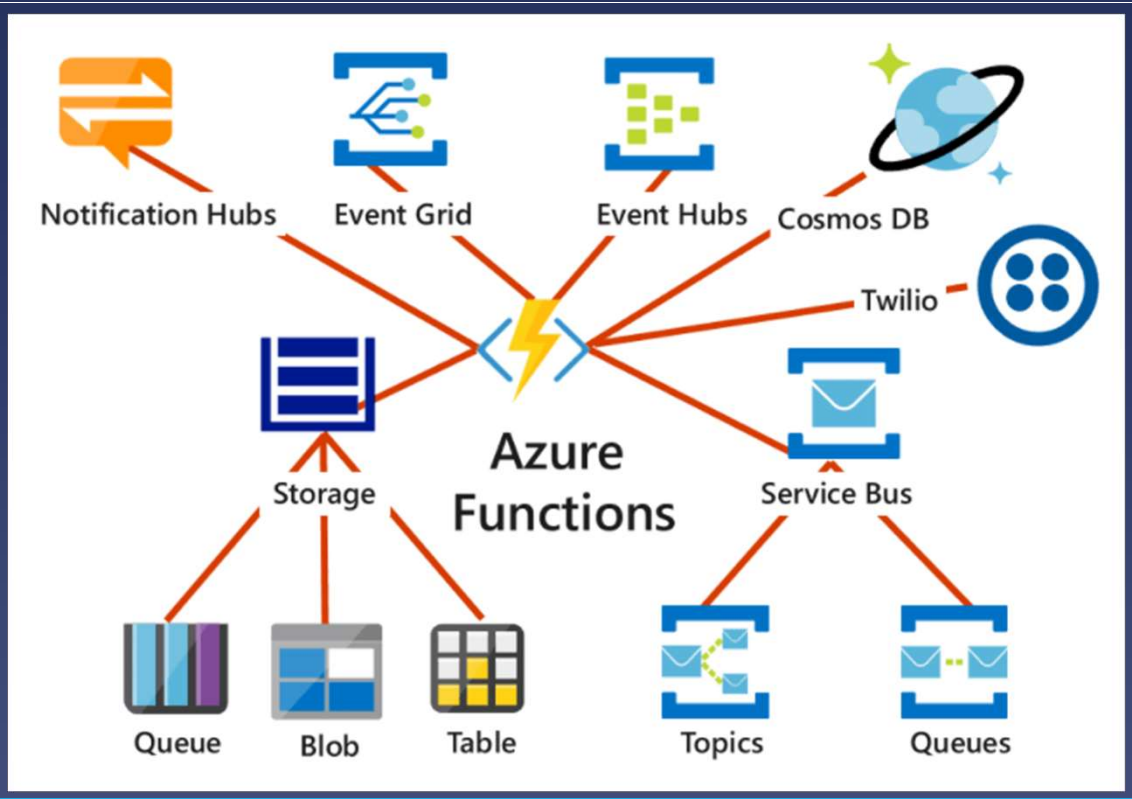
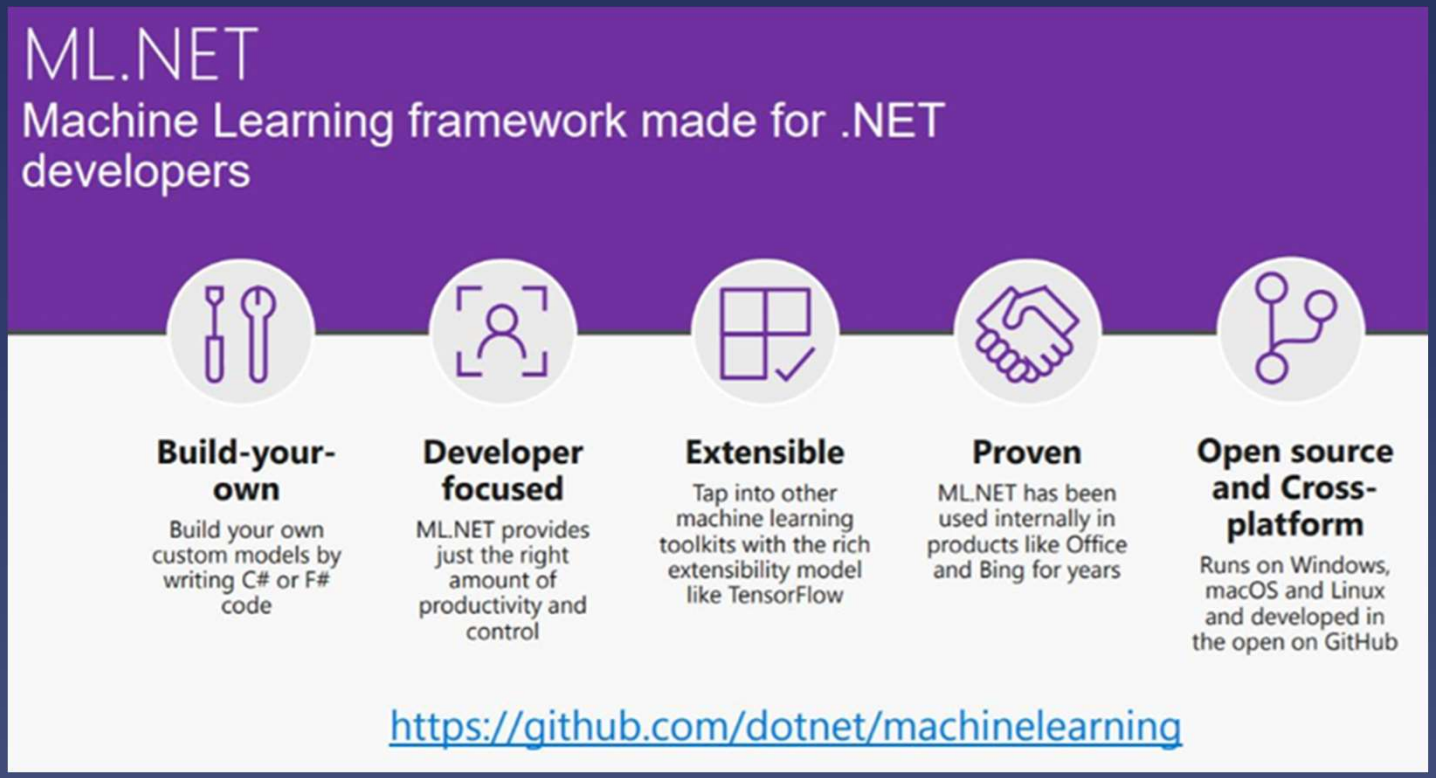
Azure Functions



Azure Functions



ML.Net



ML.NET
Machine Learning framework made for .NET developers
Build-your-own
Build your own custom models by writing C# or F# code
Developer focused
ML.NET provides just the right amount of productivity and control
Extensible
Tap into other machine learning toolkits with the rich extensibility model like TensorFlow
Proven
ML.NET has been used internally in products like Office and Bing for years
Open source and Cross-platform
Runs on Windows, macOS and Linux and developed in the open on GitHub
